

EXTERNAL DOOR FRAMES

We have a long history of building timber entry frames. Since the early 1990s, we have been manufacturing solid timber entrance door frames from only the best kiln-dried Tasmanian Oak.

You can get Triline timber door frames for both open in and open out doors. Open-in frames come with a 23mm rebate to suit fly screen door. They look great around any door and are perfect for single doors, double doors, side-lights and high-lights.

We specialise in custom-made entrance frames for many applications to suit:

- French door frames (double doors)
- Raven RP4 door seal
- Weatherboards
- Oversized side-light(s)
- Transom and/or glass bead
- Glazed side-light or high-light
- Varying door height, width or thickness
