

TRILINE INTERNAL PIVOTICA HINGE

The *argenta*® *pivotica*®, allows you to use spaces and walls creatively as the pivot hinge does not require a door frame and the door can be aligned perfectly with the wall.

minimalistic and
invisible pivot hinge

2020

PRODUCT INFORMATION

In Detail

The Triline Pivotica minimalistic and invisible pivot hinge has several unique characteristics. Thanks to its compact size the *Pivotica*® is not only easy to mount in the door, the pivot hinge can also be installed in pivoting floor-to-ceiling-height doors.

Triline's internal pivot hinge is made by top quality Belgium components.

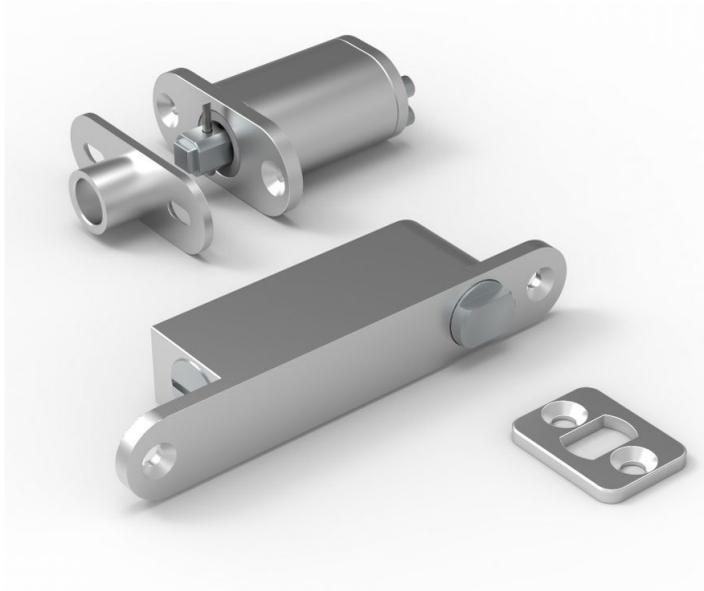

The innovative pivot hinge even allows for the pivot point on the door to be chosen freely (at a minimum of 40 mm from the side of the door); this way, wide doors can for instance rotate from the middle. The *pivotica*® is suitable for both left and right doors.

Thanks to the *argenta*® *pivotica*® architects can use spaces and walls creatively, seeing how the pivot hinge does not require a door frame and the door can be aligned perfectly with the wall.

All parts of this pivot hinge are rust-resistant. The *pivotica*® is suitable for indoor use of both modern residential buildings as well as public buildings and offices.

TRILINE PIVOTICA	
Finish	Brushed Stainless Steel
Max. Door Weight	60kg
Max. Door Height	3000mm
Max. Door Width	1500mm
Min. Door Thickness	40mm

- Child friendly (easy to open)
- Pivot system to be mounted in the door panel and not (as usual) in the floor or ceiling

APPLICATIONS

- Residential
- Office Spaces
- Apartments

MAGNETIC CONTACTLESS DOOR CLOSER

The *pivotica*® is preferably used in combination with the *magnotica*®, a contactless door magnet.

The *magnotica pro*® is a magnetic and contactless door closer which holds interior doors shut without the need for a door handle or latch. Because there are no moving parts, the door can be opened and closed completely noiseless. This *magnotica pro*® can be installed on any normal wooden door and frame and is also specially designed for easy installation in the *invisidoor*® DL, the concealed aluminium frame for interior doors. Because the door is quick and easy to open without the need for a door handle, this magnetic closure is particularly suitable for doors to walk-in closets or storerooms. The *magnotica pro*® is also ideal for use in combination with the *pivotica*®, the unique compact pivot system from *argenta*®. The *magnotica pro*® can be used either vertically (on the front edge of the door) or horizontally (top of the door).

Advantages:

- No moving parts to wear out
- Door can be opened and closed noiselessly without a door handle or latch
- Doors are quick and easy to open and close
- Available in white, black or grey
- Perfect integration in the *invisidoor*® DL possible
- Ideal for doors to walk-in closets or storerooms
- Perfect for keeping pivoting doors in their closed position
