Transforming Spaces with Flush Precision.

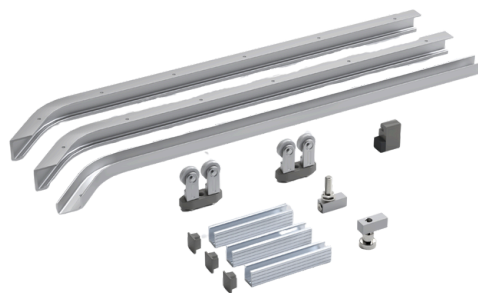

The coplanar FlushSlide door system offers an innovative solution for architects and builders aiming to achieve cutting-edge design and functionality. This system seamlessly integrates with walls or joinery, creating a sleek and modern look while maintaining practical functionality. Perfect for concealed transitions and aesthetic spaces, the Coplanar system redefines modern design.

INTRODUCTION

Seamlessly Elegant, Perfectly Hidden.

The FlushSlide door system is a top-hung sliding door that sits perfectly level with the wall when closed, creating a seamless, hidden look.

It solves the problem of bulky, visible sliding doors by allowing the door to blend into the surrounding surface, making it ideal for hidden rooms, integrated wall paneling, and modern, minimalist designs.

SPECIFICATION
